## Load Data To file

load the save data from 'SaveDataToFile.m' file.

```
%load all variable from .mat file
load('F:\Matlab\Matlab Works\Writing image data to File
\ImageData.mat');

a = zeros(size(im, 1), size(im, 2));

just_green = cat(3, a, green, a);

Show the image

subplot(2,2,2);
imshow(just_green), title('After gruping some pixel from green
channel');
```

After gruping some pixel from green chann
